

## Announcing New GPS Locator Tool for Shared Branching

Finding a convenient Shared Branching Credit Union Service Center just got easier! Members can now download the over 3,430 locations to their personal navigation devices. This new option joins CO-OP Shared Branching's existing telephone and web locator services.

By visiting [www.cuservicecenters.com](http://www.cuservicecenters.com) and clicking on the "Downloads" tab, members can load Service Centers into Garmin and Tom-Tom GPS locators, and a variety of other popular systems, in a few short steps. The process usually takes less than a minute to complete.

"Shared branching helps credit unions stay as accessible as even the largest banks, an especially critical factor considering the recent bank mergers and financial market upheaval," said Carroll Beach, CO-OP Shared Branching president/COO. "With this new tool, credit unions have one more way to find a convenient location to do their banking when they are on the go."

In addition to the GPS download function, members can call 1-800-919-2872 for turn-by-turn directions in English or Spanish. They can also visit [www.cuservicecenters.com](http://www.cuservicecenters.com) to search nearby locations and participating credit unions, to download a directory, and much more.

Now it's easier to find a Shared Branching location than ever!

This credit union is federally insured by the National Credit Union Administration

765 Washington Street + P.O. Box 598 + Bath, Maine 04530
